

Call for Abstracts

German Biochar Forum 2024

How to apply biochar in sustainability management and accounting
18 – 19 November 2024 in Berlin, Germany

The German Biochar Forum will return in November 2024. This year we would like to discuss and develop visions, methodologies and policies to integrate biochar carbon removal (BCR) into national and corporate strategies. We are looking for contributions for the following topics:

- Carbon accounting – why is it significant and what role will biochar play in this field?
- Improving product sustainability – how to combine BCR-MRV, LCAs and EPD/PEF?
- Governmental monitoring and evaluation systems – how can BCR methods be aligned?
- Sustainable urban development – how to include biochar?
- Business models – how can biochar be included?
- Financing solutions – how to convince investors?

We are looking forward to receive your abstracts. Please consider the following guidelines for your submissions:

- **Form of contribution:**
 - On-site presentation, 20 minutes + 10 minutes for questions or
 - On-site workshop, 10 minutes kick-off speech + 50 minutes workshop
- **Language: English**
- **Deadline for submissions: July 15, 2024**
- **Submit via e-mail to clara.haenchen@german-biochar.org**

Unfortunately, on economic grounds the German Biochar Forum will not be able to cover costs for tickets or hotel for speakers. We kindly ask our potential speakers to consider this when sending their abstracts.
